HVAC PARTS • SUPPLIES • EQUIPMENT

## Southwark Metal Training

Join Us for this Important Training

*Presented by John Lemm of Southwark Metal*

**DATE:** Thursday, December 11, 2025

**TIME:** 8:00 AM - 12:00 PM

**LOCATION:** Geary Pacific Supply  
12475 W Franklin Rd  
Boise, ID 83709  
Phone: 208-376-2332

**COST:** FREE!

### Introduction to Air Distribution and Duct Design

With an end goal of having a better understanding of the importance of a properly designed air distribution system, this four-hour module will serve as an introduction to industry accepted procedures for HVAC system design described in the code-cited ACCA design manuals. Starting with a breakdown of the Manual J Speedsheet (an Excel-based worksheet created by ACCA), we will look at the pertinent information needed for a basic load calculation. Accurate load calculation is essential to help determine the heating and cooling requirements of a residence, and to overall duct system design. Additional duct design parameters such as friction rate and duct size calculator usage will help attendees leave with a basic knowledge of these critical design elements needed to populate a Manual D Speedsheet and begin the process of appropriately sizing duct work in a residential application.
