Why do we evacuate, what happens when we don't, and how can we speed up the process?

This class will also show the difference in evacuation times using the correct equipment and setup VS. the "traditional way" it has been done in the past, utilizing two 5-ton equivalent vacuum test chambers and "dueling vacuum rigs!"

Join Kevan from NAVAC HVAC Tools to learn the latest industry knowledge tips and tricks!

Class size is limited. Register at www.gearypacific.com/Events
RSVP: Nick Ballard (702) 971-8414 / Email: NickBallard@gearypacific.com
