

Packard Presents Electricity & HVAC Motors

Geary Pacific Supply

Join Us for this Important Training

Presented by Rick Streacker, Packard's National Training Coordinator

Date: **Wednesday, May 27, 2020**

Time: **5:00 - 6:30 PM**

Where: **Geary Pacific Supply**
6421 Box Springs Road
Riverside, CA 92507
Phone: 951-656-3010

Cost: **FREE** (Food and Drink provided)

A G E N D A

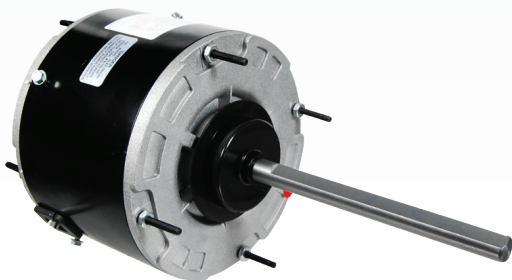

As a result of new requirements placed upon manufacturers, electronically commutated motors (ECM) are becoming prominent in equipment.

- What are these motors?
- How do they differ from PSC and shaded pole motors?
- What causes them to fail?
- How do you select the proper replacement?
- Can you replace a shaded pole or PSC draft inducer motor with an ECM?
- Can you repair a draft inducer?

These and many other points will be discussed in this class. PSC and shaded pole motors will continue to be the typical motor that the technician will be servicing for many years. Because of this, we'll also discuss evaluating their proper performance in systems.

RSVP: **Pam Villanueva 951-656-3010** Email: **PamV@gearypacific.com**

Register Online: **www.gearypacific.com/Events**

This class will provide 2 hours of NATE continuing education credits.
